

**Minutes of Meeting: C37-082 Sound Pressure Level Working Group.
9th May 2007, St Pete's Beach**

Chair : Leslie T Falkingham

Members: 10

Guests: 1

Kick off meeting for the WG. Discussed and agreed the Scope – widening to DC was considered but rejected. Now we will apply for PAR. It is believed that this may be suitable for dual logo status and we will proceed on this basis.

The existing standard was examined and tasks assigned to WG members. Plan is to review work in Fall 2007 meeting and to have a Draft standard available for discussion in Spring 2008 Meeting. If positive response, then we will go for approval summer 2008.

Definitions will need to be reviewed and definitions for “Free Field” and “Restricted Field” developed.

Task Schedule

Tasks:	WG Member	Date Scheduled
Re-write scope & apply for PAR	LTF	July 2007
Convert .pdf to Word	GM,LTF	June 2007
